Production Associate

Job Summary:

The Production Associate is reliable and detail-oriented and works across departments including mirrors, closets, wire shelving, and shower enclosures. Strong teamwork skills are required with the ability to work in a fast-paced environment while maintaining high quality and safety standards. This position performs glass cutting along with the ability to accurately measure, assemble, and handle materials safely and efficiently.

Responsibilities:

- Work in any of the assigned production departments – mirrors, closets, wire shelving, shower enclosures, etc. on an ongoing basis with a strong emphasis on glass cutting
- Measure, assemble, install and label components according to specifications
- Co-ordinate with other departments on an on-going basis to ensure smooth workflow and product handling
- Troubleshoot and resolve production issues in the assigned department
- Acquire regular training and necessary certifications on various tools and machinery being used on the production floor from time to time
- Participate in quality checks & continuous improvement initiatives on the shopfloor
- Accurately record production completion and barcode information in the production tracking system to maintain product traceability
- Commute between the production shop and warehouse facility and be actively involved in safely and efficiently unloading product containers if required
- Operate the forklift if required
- Be responsible for inventory handling at the warehouse when required

9719 63 Avenue, Edmonton, Alberta T6E 0G7 / <https://www.tscg.ca>

Health and Safety:

- Maintain a clean and safe work environment by following safety protocols
- Wear appropriate personal protective equipment (PPE) such as sleeves, safety boots and glasses
- Adherence to H&S requirements at all times. WHMIS, CSTS would be good to have
- While at the warehouse, inspect the unloading area to ensure it is clear of obstacles and hazards
- Check the container for any signs of damage or instability before opening
- Inspect the products for damage during transit
- Perform routine maintenance checks on the equipment to ensure it remains in good working condition

Qualifications:

- High school diploma or equivalent
- Glass cutting experience with previous experience in a manufacturing or production environment
- Strong attention to detail and commitment to quality
- Good communication and teamwork skills
- Ability to lift and move heavy objects (up to 50 lbs)
- Willingness to work in a fast-paced and physically demanding environment
- Forklift experience would be an asset
- Drivers license is preferred

Benefits:

- Competitive salary and benefits package
- Opportunities for career growth and development
- Comprehensive training and support
- Health and wellness programs
- Employee discounts on company products

Job Types: Full-time, Permanent

Work Location: In person
